

The LAC "How-to" For Commenting on Wetland and Site Specific Permit Applications

Steve Couture
Rivers Coordinator
2009 River and Watershed Conference

Why are we here?

To protect unique New Hampshire rivers for the benefit of present and future generations through state and local resource management.

Statutory Authorities

- RSA 483
 - Rivers Management & Protection Act
- RSA 482.A
 - Wetlands
- RSA 485-A:17
 - Alteration of Terrain or Site Specific

River & Watershed
Conference-11/8/03

RSA 483

Rivers Management & Protection Act

- 483:12-a Requires notification of NHDES Rivers Coordinator & Local Advisory Committees (LACs)
- 483:8-a LACs authorized to consider and comment
- 483:9, 483:9-a, 483:9-aa, 483:9-b Specific protection measures

River & Watershed
Conference-11/8/03

Regulatory Protection for Designated Rivers

- Dam construction and channel alterations
- Instream flow protection
- Inter-basin water transfers prohibited
- Setback established for new solid and hazardous waste facilities
- Motorized watercraft usage controlled
- Use of biosolids prohibited within 250'

River & Watershed
Conference-11/8/03

RSA 482-A; Wetlands Permit

- Purpose: "...for the public good and welfare of the state to protect and preserve its submerged lands and wetlands from despoliation and unregulated alteration."
- 482-A.3; Dredge and Fill Permit required
- Wt 302.03; Guiding principal of Wetland Bureau rules is "avoidance and minimization"

River & Watershed
Conference-11/8/03

RSA 485-A:17 - Site Specific

- **Jurisdictional Thresholds:**
 - 100,000 sq ft of contiguous disturbance (50,000 sq ft within Protected Shoreland)
- **Major Components of Permit Review:**
 - Stormwater controls. Pre-development peak discharge rate does not exceed post-development peak discharge rate.
 - Provide treatment of stormwater runoff from impervious surfaces.
 - Construction erosion and sediment controls.

River & Watershed
Conference 11/8/03

Applications & Jurisdiction to RMPP

- **Jurisdiction:** $\frac{1}{4}$ mile wide corridor
- **Wetlands**
 - 2200 applications per year
 - ~ 5% within $\frac{1}{4}$ mile corridor
- **Site Specific**
 - 350 applications per year
 - ~ 25 within $\frac{1}{4}$ mile corridor.

River & Watershed
Conference 11/8/03

LAC Notification Procedure

- **Wetlands**
 - Expedited Applications
 - Email notification within 3-4 days
 - 2 weeks comment period
 - Standard Applications
 - Letter notification
 - 30 day comment period
- **Site Specific**
 - All applications
 - Letter notification within 5 days
 - No formal response period
 - May adopt 40 day requirement

River & Watershed
Conference 11/8/03

LAC Local Notification Requirements

RSA 483:8-a,III(a)

"Municipal officials, boards, and agencies shall inform such committees of actions which they are considering in managing and regulating activities within designated rivers."

River & Watershed
Conference 11/8/03

Helpful LAC Comments for DES

Provide one combined letter to Wetlands & Site Specific with local knowledge relative to:

- Flooding, ice dams
- Tributary streams, in-stream flows, water withdrawals
- Recreational, agricultural, & commercial uses along corridor
- Threatened or endangered species

- Localized bank erosion
- Dams within vicinity
- Significant habitat
- Stormwater BMP location relative to scenic or habitat value
- Any characteristics or values river was designated for
- RMPP Protection Measures

River & Watershed
Conference 11/8/03

Issues Outside DES Jurisdiction (i.e. discuss locally)

- **Noise**
- **Traffic**
- **Zoning, setback issues**
- **Housekeeping practices**
 - Fertilization uses (except within Protected Shoreland)
 - Street sweeping
 - Catch basin stenciling
